WELCOME!

from Professor Sam Turner, CEO of AMIC

At the Advanced Manufacturing Innovation Centre we're delighted to be partnering with this year's Northern Ireland Manufacturing Conference and Supply Chain Expo.

We're looking forward to networking with manufacturing companies of all sizes across a range of sectors to find out more about the challenges

they face and discuss how we can support them.

We want to share our exciting plans for AMIC, which is set to turbocharge Northern Ireland's manufacturing capabilities and embed a culture of innovation to act as a driver for increased productivity.

At the Titanic Exhibition Centre, we'll be sharing our stand with partners including the High Value Manufacturing Catapult, a network of research, development and innovation centres transforming UK manufacturing.

At the event you can speak to experts from AMIC about our core capabilities in Digitalising Manufacturing, Smart Design, Sustainable Composites & Polymers and Smart Nanotech.

You'll also be able to make new contacts with staff from the Advanced Manufacturing Research Centre, the Manufacturing Technology Centre, the National Composites Centre and the CPI which are helping deliver industrial transformation across the UK.

Representing £100m investment within the Innovation Pillar of Belfast Region City Deal, AMIC is an industry-led, open access manufacturing and engineering innovation centre with state-of-the-art facilities and an expert engineering team, underpinned by academic excellence.

AMIC is being delivered by Queen's University Belfast in partnership with industry, Ulster University and Antrim and Newtownabbey Borough Council. It will build on 50 years of sustained innovation and industry support through the Northern Ireland Technology Centre (NITC), the Polymers Processing Research Centre (PPRC) and the more recent university-industry partnership, NI Advanced Composites and Engineering (NIACE).

AMIC's flagship building is a 10,500m² state-of-the-art facility 'Factory of the Future', which will be built at Global Point Business Park in Newtownabbey designed for industry use and access.

The Centre, which has recently been granted planning permission, will reinvigorate Northern Ireland's industrial potential and address the future technology and skills challenges faced by the region's manufacturing sector.

Plans for AMIC have been continuing to gather pace over the last year. A Strategic Technology Roadmap was published in October 2022 following a detailed consultation on technology and skills needs for the next decade with over 100 leaders in advanced manufacturing.

An AMIC Industry Advisory Board, with representatives from over 20 local companies, was also formed last autumn, driving strategic direction to ensure that it has the capability required to address current and future industry challenges.

And while the Factory of the Future won't be fully operational until 2026, AMIC as an organisation is going 'live' this summer.

We're thrilled to announce that a £1m commitment from Innovate UK will enable us to begin supporting local businesses. The funding will establish digital manufacturing testbeds within AMIC in automated food manufacturing, digital twins, and embedded digital verification technology.

The suite of digital manufacturing testbeds will be available to businesses to explore digital manufacturing technologies, use cases and how they can be applied to address business challenges.

The funding will also strengthen the relationship between AMIC and HVM Catapult, making the wider UK manufacturing innovation ecosystem and funding more accessible to Northern Ireland businesses.

At AMIC we're excited about supporting local companies to be more competitive on a global scale, attracting investment and ensuring that we have the skilled workforce needed for the Northern Ireland's future and we look forward to working with you to make it happen!

Main Stage Northern Ireland Manufacturing & Supply Chain Conference & Exhibition

Main Stage Northern Ireland Manufacturing & Supply Chain Conference & Exhibition

Times	Name	Topic
9.55-10.00	Sam Turner, Chief Executive Officer, Advanced Manufacturing Innovation Centre (AMIC)	Opening Remarks
10.00-10.20	Sam Turner, Chief Executive Officer, Advanced Manufacturing Innovation Centre (AMIC)	AMIC; Driving Innovation in Northern Ireland Manufacturing
10.20-10.40	George Wilson, Senior Executive, Centre for Competitiveness Belfast	Sustaining Value in the Supply Chain
10.40-11.00	Barry Andrews, Member, European Parliament	Taking oil spills and human rights abuses out of our shopping baskets: Sustainability and Due Diligence in the EU
11.00-11.20	COFFEE BREAK & NETWORKING	
11.20-12.00	Fireside Chat & Demonstration: Nick Racster, CEO, KaizApp AG & Paul Collins, Board Advisor, KaizApp AG	KaizApp - Competitive advantage through AI assisted continuous improvement (for 10x stronger results)
12.00-12.20	Liam Cassidy, Partner - Lean Management, Altix Consulting	Managing Change - Why it succeeds and why it fails
12.20-13.00	Fireside Chat: John Pearce, CEO, Made in Britain, Alan Lowry, Founder & CEO, Environmental Street Furniture Limited, Martin Mallon, Technical Marketing Manager, CT1	Supply Chain Localisation - Trust, Resilience and Sustainability
13.00-13.30	LUNCH & NETWORKING	
13.30-14.10	Moderator: Sam Turner, Chief Executive Officer, Advanced Manufacturing Innovation Centre (AMIC) Panellists: Darren Anderson, Lecturer, South Eastern Regional College, Wasif Naeem, Reader (Associate Professor), Queen's University Belfast, Sean McLoone, Professor, School of Electronics, Electrical Engineering, Queen's University Belfast	Bridging the Talent Gap: Empowering Manufacturing in Northern Ireland through Skills and Expertise
14.10-14.30	Peter Turley, Managing Director, Sell Squared	Grow like ****!
14.30-14.50	Suzanne Robb, Technology and Innovation Officer, CPI Biologics	CPI Pharma and Biomanufacturing - an Overview
14.50-15.30	Moderator: Daksh Kumar, Global Solution Leader, IBM Consulting Panellists: Meenakshi Chorge, Senior Solution Consultant, IBM Consulting, Darko Djapic, Performance Data & Benchmarking Lead Ireland, IBM Consulting, Deepa Sridhar, Senior Solution Consultant - IBM	Generative AI for Business
15.30-15.35	Sam Turner, Chief Executive Officer, Advanced Manufacturing Innovation Centre (AMIC)	Closing Remarks

3D Printing (AM)

Times	Name	Topic
9.55-10.00	Kieron Swords, CEO, Dynamic Innovations	Opening Remarks
10.00-10.20	Cathal Finch, Area Sales Manager, Tyrolit	Tyrolit - Your Partner for Composite Cutting, Grinding, & Machining
10.20-10.40	David Wimpenny, Chief Technologist, National Centre for Additive Manufacturing - MTC	Overcoming the barriers to adoption of Additive Manufacturing
10.40-11.00	Joseph Reffitt, Regional Development Lead (Digital Engineering), National Composites Centre	Digital Engineering in Composites
11.00-11.20	COFFEE BREAK & NETWORKING	
11.20-11.40	Mark Higgins, Director of Operations, Fast Technologies	Life in the FAST lane for Small-Medium sized businesses
11.40-12.00	Margaret McCaul, Assistant Professor, DCU	3D Printing in Sensor Development for Monitoring Natural Waters
12.00-12.20	Dermot Brabazon, Professor, DCU	Digitalisation of Metal Additive Manufacturing for Part Microstructure and Quality Control
12.20-12.40	Kieron Swords, CEO, Dynamic Innovations	Sustainability and Circular Economy in Advanced Manufacturing
12.40-13.05	LUNCH BREAK & NETWORKING	

High-Tech Manufacturing & Precision Engineering (PM)

13.05-13.45	Moderator: Kieron Swords, Dynamic Innovations Panellists: David Wimpenny, Chief Technologist, National Centre for Additive Manufacturing - MTC, Mark Price, Professor of Aeronautics, High Value Design Lead, School of Mechanical and Aerospace Engineering, Queen's University Belfast & Dermot Brabazon, Professor, DCU	From Blueprint to Breakthrough: Unveiling the Power of 3D Printing and High-Tech Precision Engineering in Northern Ireland's Manufacturing Horizon
13.45-14.05	Adam Stewart, Manufacturing Intelligence Division, Hexagon & Paul O'Neill, Metrology Systems Sales Manager, Hexagon	HEXAGON - Intelligent Machine Control & Automated Inspection Solutions
14.05-14.25	Alastair Cupples, Manufacturing Engineer (CNC), Northern Ireland Technology Centre, Queen's University Belfast	Digital Machining
14.25-14.45	Mark Price, Professor of Aeronautics, High Value Design Lead, School of Mechanical and Aerospace Engineering, Queen's University Belfast	New perspectives on interoperability across design and manufacturing in an integrated design process
14.45-15.05	Peter Higgins, Digital Manufacturing Team Lead, Northern Ireland Technology Centre	Simulation for informed decisions on your factory floor, steps towards a digital twin
15.05-15.25	Tadhg Henderson, CEO, Profitsflow	Is MRP or MPS Best Suited to Your Business?
15.25-15.30	Kieron Swords, CEO, Dynamic Innovations	Closing Remarks

Robotics & Automation (AM) / Food & Drink Manufacturing (PM)

Robotics & Automation (AM)

Times	Name	Topic
9.55-10.00	Lee Bristow, Chief Technology Officer, Phinity Risk Solutions	Opening Remarks
10.00-10.20	Damien Munroe, Managing Director, Control Station	Modeling and optimization approaches to PID controlled processes and system
10.20-10.40	Lee Bristow, Chief Technology Officer, Phinity Risk Solutions	Neural Science of Compliance - Can Ethics and Robotics Mix
10.40-11.00	Natasha Pell, Process Improvement Engineer, Wallace McDowall	Transforming Manufacturing: Introducing Collaborative Robots for Enhanced Efficiency and Innovation
11.00-11.10	COFFEE BREAK & NETWORKING	
11.10-11.30	John McManus, Country Director, Advanced	Supercharging your manufacturing by becoming proactive with your people
11.30-11.50	Jarlath Warner, Founder & CEO, Axonnr	Robotics - The Future of Prosthetics
11.50-12.10	Andrew Schofield, Automation and Robotics Lead, Northern Ireland Technology Centre, Queen's University Belfast	Lights Out Automation – Closing the Loop
12.10-12.40	Moderator: Lee Bristow, Chief Technology Officer, Phinity Risk Solutions Panellists: Natasha Pell, Process Improvement Engineer, Wallace McDowall, Jarlath Warner, Founder & CEO, Axonnr & Andrew Schofield, Automation and Robotics Lead, Northern Ireland Technology Centre, Queen's University Belfast	Unleashing the Future: Robotic Revolution in Northern Ireland's Manufacturing Realm - Trends, Challenges, and Remarkable Rewards
12.40-13.00	LUNCH BREAK & NETWORKING	

Food & Drink Manufacturing (PM)

13.00-13.05	Rabia Mirza, CEO, Leadership and HR Solutions	Opening Remarks
13.05-13.25	Anne Conlon, Founder, All About Sales	Selling Through
13.25-13.45	Sinéad Crowther, CEO, Soothing Solutions	Manufacturing Mums
13.45-14.05	Dr Michaela Fox, AgriFood Business Development Manager, Institute for Electronics, Communications and Information Technology (ECIT)	Trends, drivers, market needs and opportunities for the agri-food industry
14.05-14.25	Doireann Barrett, Founder Owner & Business Developer, The Gluten Free Kitchen Company	My journey learning to live with Stage 4 Endometriosis & Coeliac Disease while developing my Food & Wellness Brand
14.25-14.45	Rabia Mirza, CEO, Leadership and HR Solutions	7 ways to master your leadership skills
14.45-15.05	Annemarie Roddy, Associate Director, Carbon Fit	Decarbonising Your Supply Chain
15.05-15.20	Sue McGuire, Partnership Manager Northern Ireland, Digital Catapult	The role of digital technologies in the drive to NetZero
15.20-15.25	Rabia Mirza, CEO, Leadership and HR Solutions	Closing Remarks

Supply Chain, Logistics, Procurement (AM)

Times	Name	Topic
9.55-10.00	Jonathan Walsh, International Trade & Strategic Management Consultant, Fortior Insight Ltd	Opening Remarks
10.00-10.20	Dermot Diamond, Professor Emeritus, Dublin City University	Making Northern Ireland the location of choice for Wealth-Creating Industries of the Future
10.20-10.40	Michael Gerner, Principal Director, Precise Proposals	To bid or not to bid? That is the question
10.40-11.00	Daniel Freeman, Senior Consultant, Scotwork International	Creating better deals: What's preventing your teams from becoming better negotiators?
11.00-11.10	COFFEE BREAK & NETWORKING	
11.10-11.30	Desmond O'Sullivan, VP Business Development EMEA, Optel Group	The Future of Pharmaceutical Supply Chains
11.30-11.50	James Butcher, CEO, Supply Pilot	How to ensure supply chain resilience through supplier engagement.
11.50-12.10	Dr Hangfei Guo, Director of Certificate and Diploma Programmes, Queen's Management School, Belfast	Boosting your career in Operations and Supply Chain Management
12.10-12.30	Jonathan Walsh, International Trade & Strategic Management Consultant, Fortior Insight Ltd	What does the Windsor Framework mean for Cross-Border Traders in Northern Ireland
12.30-12.50	Nigel Irvine, Founder & CEO, Specialist Export Solutions Ltd	Let's get Exporting! The smarter way to start
12.50-13.20	LUNCH BREAK & NETWORKING	

Lean, Productivity & Continuous Improvement (PM)

13.20-13.25	Tom Hughes, Commercial Director, GembaDocs	Opening Remarks
13.25-13.55	Nick Racster, CEO, KaizApp AG & Paul Collins, Board Advisor, KaizApp AG	KaizApp - Self-sustaining continuous improvement with AI assisted problem solving
13.55-14.15	Tom Hughes, Commercial Director, GembaDocs	How to make any workplace better with SOP's
14.15-14.35	Linda Middleton-Jones, Managing Director, International Trade Matters Ltd	Lean Into Export
14.35-14.55	Rich Dale, CEO & Founder, Flowlens Manufacturing Software	Invisible Waste - 5 Ways You Are Leaking Cash and Opportunities (and what to do about it)
14.55-15.30	Moderator: Tom Hughes, Commercial Director, GembaDocs Panellists: Linda Middleton-Jones, Managing Director, International Trade Matters Ltd, Rich Dale, CEO & Founder, Flowlens Manufacturing Software & Liam Cassidy, Partner - Lean Management, Altix Consulting	Lean Revolution: Powering Efficiency and Waste Elimination in Northern Ireland's Manufacturing Landscape
15.30-15.35	Tom Hughes, Commercial Director, GembaDocs	Closing Remarks
